REGION 10 BULLETIN NO: 09-43

Subject: NTI Risk Assessment for Transit Capital Projects Course

Program Area: Training

Date: July 31, 2009

The National Transit Institute (NTI) is presenting a FREE pilot course, "**Risk Assessment for Transit Capital Projects**", ($300 for consultants and contractors) scheduled for September 14-15, 2009 in Salt Lake City, Utah.

The objective of this two-day course is to provide an overview of the Federal Transit Administration's (FTA) risk review requirements and process. This is a comprehensive course; however, the following pre-requisites are recommended:

- General knowledge of transit systems and common design and construction issues;
- Basic understanding of how New Starts transit development occurs within the context of the FTA funding assistance; and
- Experience with standard project metrics, such as estimating and scheduling.

This course is intended for managers, contract managers, designers, and builders who are undertaking a transit capital project larger than $300 million. However, please keep in mind that the content of this course is scalable for small and medium projects.

If you are interested in attending, please use the following link http://www.ntionline.com/CourseInfo.asp?CourseNumber=TPM-12 and register online. Seating is limited for this course, so register early.

For further information, please contact Region 10's Amy Changchien at 206-220-4464, or email amy.changchien@dot.gov.

Sincerely,

Kenneth A. Feldman
Director, Office of Program Management and Oversight
