

STATEMENT OF CAPABILITIES

Project Management consulting, Program Management consulting, Project Management & Software training services

BeDazzle Consulting Group is a management consulting firm that specializes in managing projects for small and large corporations and agencies. We are a group of highly skilled, organized and experienced consultants who provide program, project management and training services. We understand that success is based on performance and reaching and exceeding planned objectives.

Roni Olusanya is the owner of BeDazzle Consulting Group. She is an Electrical Engineer and a certified Project Manager (PMP). BeDazzle Consulting Group is a certified Woman Owned Business (WBE), HUB, listed on ccr.gov website. BeDazzle Consulting Group obtained SBA 8(a) certification in 2005.

Our Program & Project Management Methodology

Our project management methodology employs various enterprising approaches. Our consultants are **PMI** certified project managers who follow the PMI guidelines and methodology. Therefore we are able to adapt and work in various industries. We manage all 5 phases of a project i.e. Initiating, Planning, Executing, Monitoring and Closing.

Initiating the Project

- Identify & document project needs
- Develop Project Preliminary Scope Statement

Planning the Project

- Develop a Project Management Plan
- Develop the Work Breakdown Structure (WBS) and the Activity List
- Develop the project schedule
- Estimate project costs and establish project budget
- Create quality standards
- Identify project risks and triggers and perform risk analysis

Executing Project Work

- Manage and oversee all project work

Monitoring and Controlling Project Work

- Control and Monitor Project Work
- Manage Changes to Performance Baselines
- Review Deliverables and Work Results
- Control Project Scope, Schedule, Quality, Risks & Costs
- Report Project Performance

Closing the project

- Verify, inspect and confirm the quality of the deliverable of the project
- Hand over the deliverable
- Create final project report

Our Business Process Re-engineering & Change Management Methodology

Our Business Process Re-engineering and Change Management methodology consists of the following **E-CATC** approach:

- Evaluate impact
- Communicate changes to stakeholders
- Align roles and responsibilities
- Train
- Compensate and motivate

Taking a practical approach to E-CATC involves taking action to ensure that the full impact of the change is analyzed, people embrace the project, the initiative and the change, roles and responsibilities are assigned accordingly.

Our Training Methodology

Our trainers have several years of adult training experience, so they utilize adult training methodologies. They incorporate effective techniques that involve group dynamics where participants learn from the instructor and each other. We utilize the **Robert Gagnes** nine events of instruction to ensure that students learn, retain, comprehend and apply everything they learn. The students take several exercises during the class to re-enforce what was learned. Visually oriented students appreciate our visual demonstrations and videos.

BeDazzle Consulting Group DBA Project Management Training Camp is a management consulting firm that specializes in project management and training services. We are a PMI Registered Education Provider (REP). Our services consist of:

- Project management training courses
