GRANTS
POST-AWARD
Post-Award Activities

- Grant Management
- Grantee Responsibilities
- ECHO
- Reporting Requirements
- Budget Revisions/Amendments
- Grant Close-outs
Grant Management

• Administering and managing the grant in compliance with Federal regulations, grant agreement and applicable FTA circulars.

• Managing and reporting on progress of projects, to expend grant funds in a timely and effective manner and, to close out grants when activity is complete.
Grantee Responsibilities

- Administer and manage Federal grants and grant supported activities.
- Provide, directly or by contract, adequate technical inspection and supervision by qualified professionals of all work in progress.
- Ensure conformity to grant agreements, applicable statutes, codes, ordinances, and safety standards.
Grantee Responsibilities

- Maintain the project work schedule and constantly monitor grant activities to ensure that schedules are met and other performance goals are achieved.

- Ensure compliance with FTA requirements on the part of agencies (subrecipients), consultants, contractors, and subcontractors working under approved third party contracts or inter-agency agreements.
Grantee Responsibilities

• Account for project property, provide for its repair and replacement, and maintain property inventory records that contain all the elements required.

• Request and withdraw Federal cash only in amounts and at times as needed to make payments that are immediately due and payable.

• Keep expenditures within the latest approved budget.
Grantee Responsibilities

• Demonstrate and retain satisfactory continuing control over the use of project property.

• Ensure that effective control and accountability is maintained for all grants, subgrants, cash, project property, and other assets. Grantees and subgrantees must ensure that resources are properly used and safe-guarded, and that funds, equipment, and property are used solely for authorized purposes.
Grantee Responsibilities

• Prepare and submit FTA required reports (TEAM, NTD, Civil Rights, Drug and Alcohol, etc.)

• Update and retain FTA required reports and records for availability during audits and oversight reviews.

• Ensure an Annual A-133 Audit is conducted in accordance with OMB Circular, A-133.
ECHO (Electronic Clearing House Operation)

• ECHO is a personal computer (PC) based application that processes drawdown requests and makes payment to FTA grantees.

• ECHO consists of a web-based application which grantees can access via the Internet to submit their draw down data.

• ECHO then transmits requests approved for payment to the Grantee’s financial institution through Treasury’s Automated Clearing House (ACH).
The FTA Regional or Headquarter office will make the determination to establish a grantee on the ECHO system.

The FTA accounting staff will provide the necessary ECHO-Web registration forms to be completed and returned by the grantees.

Budget Revision

- Budget revisions are allowed if there is no change in the grantee purpose, scope codes, and Federal funding.
- Grantees must submit budget revisions in TEAM using the “Revise Project Budget” screen.
- Budget revisions are generally changes to ALIs amounts (move funds between existing ALIs).
- Budget revisions require prior FTA approval if:
  - The federal share of the revision exceeds $100,000 and the change in the cumulative amount of funds is >20% from original.
  - Funds transferred between ALIs with different match ratios or between capital/operating/planning activities (change in FPC code).
  - For rolling stock when the # of buses increases by more than 2 (grants with fewer than 10 vehicles) or 20%.
Grant Amendment

- Grant amendments are required when there is either a change in the scope or an addition of Federal funds to an existing grant.
- Grant amendments are subject to the same application requirements as a new grant request (FTA, DOL review).
- Grantees submit grant amendments in TEAM using the “Create Amendment” screen.
Grant Close-outs

- “New Closeout Process” in TEAM
- Grantee must submit a Final FSR, MPR, and budget; if necessary, a request to de-obligate funds and any other report as required by the terms of the grant.
- FTA may unilaterally initiate grant closeout.
- All financial, programmatic records and supporting documentation must be retained for a period of 3 years.
Grant Close-outs

• 2 Year Rule
  - FTA has established guidelines to close-out grants *with no signs of activity for 2 years*, unless the grantee provides justification to support the grant remaining open.

• 5 Year Rule
  - FTA has established guidelines to close-out grants *that have remained open for 5 years*, unless the grantee provides justification to support the grant remaining open.
Grant Close-outs: Friendly Reminders

- Prepare & provide close-out schedule for all active grants
- Track 95-100% disbursed
- Consider deobligating small amounts of funding
- Submit Final FSR and MPRs (mark report “Yes, Final Report” in TEAM)
- 3 ✔️ Checks on the “Closeout” Screen
- Email FTA a list of grants that have been prepared for close-out

Planning for a Transit Facility in Small Urbanized and Rural Areas

State Programs Team Meeting
Raleigh, NC
August 6, 2009
Overview

• Requirements for Transit Facilities
• Enhancing/Developing a specific role for State DOT’s
• Selecting Accurate NEPA services
• Real Estate Requirements
• Peer Exchange/Best Practices
Transit Facility Types

- **Transit Operations Support Facilities**
  - Administrative Office Buildings
  - Maintenance Buildings, Garages, Storage Facilities

- **Passenger Amenities Extending Transit into Community, Environment**
  - Intermodal Centers/Multimodal Centers
  - Bus/Rail Transit Stations and Terminals
  - Bus Shelters
  - Park-and-Ride Lots
Planning for a Transit Facility

- MTP/TIP/STIP
- Preliminary Evaluation – Feasibility *
- Environmental Documentation
  - Procurement of Services
- Real Estate
  - Uniform Relocation Act
  - Appraisal and Review Appraisal
- Joint Development
Planning for a Transit Facility

- Is the proposed transit facility in a current MTP/TIP/STIP?
- If using FTA funds for Preliminary Engineering, ROW or construction include phase of work & funding amount (approx) in the TIP/STIP for **correct FY**
- Preliminary Engineering can include NEPA and Design (NOTE: FTA will not award CN of facility unless NEPA is complete)
Planning for a Transit Facility

• Procurement: If you procure consultant services make sure you:
  – advertise & take competitive proposals
  – fair & open procurement
  – document the “how/why” of selection
  – If you procure NEPA services, can the consultant:
    • Document number & types of NEPA projects completed
    • Persons who worked on NEPA projects, &
    • Satisfactory award & Records of Decision (ROD) from FTA
  – Third Party Procurement Circular:
    • http://www.fta.dot.gov/laws/circulars/leg_reg_8641.html
Planning for Transit Operations Support Facilities

• Evaluation of existing facilities:
  – Adequate condition?
  – Suitable for anticipated administrative, maintenance functions?
  – Accommodate future needs?
• Develop criteria for identifying alternative sites
• Identify alternative sites in area based on criteria/availability
• Environmental Site Assessment (Phase I and II) – Hazardous Materials Assessment; what is likelihood of contamination?
• Project Staging & Financing Plan
The NEPA Process

- Who determines the class of action?

- Three (3) Main classes of Action
  - Categorical Exclusion or documented Categorical Exclusion (DCE)
  - Environmental Assessment (EA)
  - Environmental Impact Statement (EIS)

- NEPA documentation/actions must be APPROVED by FTA prior to grant award/construction

- How the State DOT’s can assist
Categorical Exclusion (CE)

- CE’s are granted for actions that do not individually or cumulatively involve significant social, econ. or environ. Impacts

- 23 C.F.R. 771.117 provides a list of types of projects which are categorically excluded
  - new bus storage & maintenance facilities,
  - Rehab/reconstruction of bus storage & maint. facilities,
  - bus transfer facilities & rail storage facilities &
  - “Hardship” (to the seller) land acquisition, among others

  NOTE: Transit terminal are not automatic CE’s

- FTA may require a documented CE; ask for checklist from FTA Region IV

- CE’s can result in a higher class of action
Planning for a Transit Facility

• **Environmental Assessment (EA)**
  - FTA may require an EA when the *significance of the environmental impact is not clearly established*
  - *(23 C.F.R. 771.119)*
  - An open, well documented, public involvement process is essential
  - Comments catalogued and addressed; DRAFT EA on web site

• EA can result in either a:
  - *Finding of No Significant Impact (FONSI)* requiring no further environmental evaluation, or
  - identification of potentially significant impacts requiring applicant to conduct Environmental Impact Statement (EIS)
  - *Once FONSI is issued applicant may proceed with project app.*
• **Environmental Impact Statement (EIS)**

• FTA may require an EIS based on the outcome of an EA, special studies or scoping of the project
  - when adverse impacts are or could be significant
  - Special impacts like 4 (f), endangered species, parkland or historic resources/district impacts

• EIS process requires
  • substantial technical analysis
  • public review
  • evaluation of project alternatives
  • ID of potential social, economic & environmental impacts &
  • ways to avoid/mitigate impacts

• Successful completion of EIS results in FTA signing a Record of Decision (ROD)
  - Once FTA has signed a ROD, the applicant can proceed with project

REAL ESTATE REQUIREMENTS
Planning for a Transit Facility

- Real Estate (FTA C 5010.D)
- Real property must be acquired, managed, and used in accordance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970
- FTA Real Estate Resource Website
Planning for a Transit Facility

• Real Estate Appraisals
  – Independent appraisal by a certified appraiser
  – Review of the initial appraisal

• FTA must review and concur in appraisals and review of appraisals for acquisitions over $500,000 or in-kind contributions of any value before Federal funds are expended, or the value is used as local match.
Planning for a Transit Facility

• Real Estate & Earmark Funds
  – Purchase of property with earmark funds by a grantee that has *not completed* numerous Federal actions is *not allowed*
  – Grantees can’t purchase property with earmarks *without* completing NEPA, appraisal & Uniform Act requirements
  – Grantees may be risking a lapsing earmark or the possible future use of Federal funds!
Planning for a Transit Facility

• **Joint Development (JD)**
  • JD involves common use of property for transit & non-transit purposes with “connection to station”
  • JD is often project specific, taking place on, above, or adjacent to transit agency property
  • The most common joint development arrangements are ground leases and operation-cost sharing

The FTA approval process for joint developments ensures that a proposed project meets the definition of a capital project, supports the use of transit, and provides a fair share of revenue for public transit.

Joint Development Approval Process:

1. Grantee submits proposal to FTA Region with Joint Development checklist
2. Region staff reviews
3. If the proposal is a straightforward, Region approves
4. If there are difficult or first impression issues, Region consults with Headquarters Joint Development resource staff
5. HQ and Region agree on issue resolution
6. Regional Administrator signs off on project
Planning for a Transit Facility

• Transit Facility Examples
  - Complete NEPA & E & D for facility (5309 funds)
  - Purchase Real Estate and Construct Facility with 5309 funds (Phasing)
  - Construct Facility with 5309 funds with property as local match
  - Reimbursement for facility already constructed
  - Letters of No Prejudice (LONP)

• What are the steps?
Open Dialogue

• Has there been a significant increase in the number of federal environmental actions at the state level?
• What resources can FTA provide in helping you establish/develop a standardized process to address your rural and small urbanized NEPA issues?
• Do you have any best practices?
• Future needs/concerns?
