REGION 10 BULLETIN: 06-04

SUBJECT: Toolkit for Rural Community Coordinated Transportation Services

PROGRAM AREA: Grants; Planning

DATE: January 17, 2006

On February 9, 2006, the National Transit Institute (NTI) in cooperation with APTA and TRB will be providing a free presentation related to providing coordinated transportation services in rural communities. The discussion, in the form of a telephone conference, will begin at 2:00 pm Eastern Time and will last for 90 minutes.

“T-Classes” are provided by NTI to address current topics and trends related to reports published by the Transit Cooperative Research Program (TCRP). The referenced presentation will discuss TCRP Report and identify ways to improve ongoing coordination efforts. Topics within this discussion will include:

- Basic coordination concepts
- Problems that coordination addresses
- Goals for coordinated transportation services
- Coordination details—benefits, costs and barriers
- Implementing new coordination efforts

Practitioners and policy-makers who plan and implement transportation services in rural areas are encouraged to participate. The attached flier provides additional information and includes a registration form. Although free, pre-registration is required.

If you have any questions related to this presentation, please contact Federal Transit Administration at 206-220-7954.

Sincerely,

R. F. Krochalis
Regional Administrator
